25X1A9a

The Chief, Plant and Progress Staff present 25X4A2dA agends for the Training Officers Mosting to be held 6 May 1953. Arrangements had previously been made to have session devoted to introductions of Chief Instructors and presentation by them of the purpose and content of unds for the afternoon session was approved and decision 25X1A9a accorpany the great. made to berry

The Chief, Assessment Branch, discussed the revised training evaluation form and reported that he had finished a first draft on the regulations therefor, and renting presedure to be followed with the evaluations. HD/ID(s) eited the Carsond sace as indicative of the increasing attention now being directed to evaluations.

Armoniconnect was made of the briefing to be presented on training program. Those interested in attending were resinded to clear through the proper channel for reservations.

DD/TR(S) commented on the correct service mass and reseasoned the staff members that any selection of a carper service designation by an individual would not accessarily pag his with that identification for his Agency career. The purpose of the meso was to establish an initial designation so that each employee might be identified with some perwat board. There was some discussion with regard to posetb) a

involvements on matters such as promotion and retation, and it was agreed that the progress had not been sufficiently ensembled at this time to clearly results such questions.

The Chief, PMG, called ettestion to the lack of information on TM(6) courses available to potential returnees prior to their departure from oversees stations. In the past this has resulted in recommendations being unde that returnees should take training, agreement that training would be good for them, but no knowledge as to what specifically was included in the training being referred to. To convert this, it was recommended that division and brunch chiefs conserve with the recommended that division and brunch chiefs conserve with the sterile course status, which each be made available to oversees installations.

25X1A9a

Chief, PPS, pointed out the desirability of no-emmining the instructors and jest Policers which are now on file in TAB and also-where. These folders are in some cases out of date or incomplete, or need to be re-shouted to account with the many revisions which have taken place in both basic and specialised programs of instruction. Division chiefs were requested to revise the subject folders in cooperation with
